### School for Strings

The Maryland Talent Education Center is a community music school serving the Mid-Maryland region, offering string instruction by skilled professional musicians to students ages 5-18. Our faculty are highly qualified and experienced teachers who seek to help each student reach his or her highest potential in musical skill and artistry. Students at the Maryland Talent Education Center are part of a comprehensive program that includes private lessons, group classes, ensembles and frequent performance opportunities. We accept students ages 6 and up on violin, viola and cello. It is our goal to help students attain a level of skill and mastery on their instrument that will allow them to become lifelong players, no matter what their chosen profession. For students interested in pursuing a career in music, a personalized education plan is created that includes a step by step plan to help students achieve their dream of becoming a professional musician. Please visit our "Alumni" page to get to know some of our graduates. Phyllis Freeman, director
